Triple R M100 Filter Element

Triple R depth filter element

Article number(s): EL10006 / M-100 TR-20430

PRODUCT DESCRIPTION

Triple R filter elements are manufactured in Japan. A highly precise production process and strict inspections ensure that every filter element meets the specified requirements. Due to their unique and patented composition, Triple R filter elements are the only ones capable of preventing (solid) particles, water, AND the formation of resin. M-Series filter elements are ideally suited for hydraulic oil. 3 µm absolute | ß3 = 1000
