Triple R offline / bypass oil filtration system

Article number(s): SE100 WG 3OS / SE1000059

- Equipped with its own motor pump, for 24/7/365 Off-line use
- Installation on tanks or systems that are not under pressure or do not contain a pump
- Suitable for cleaning water glycol (HF-C)
- The SE100 WG is the European alternative to the Japanese SE100W-ST SE1000059
- Designed and produced by TRIS BV

PRODUCT DESCRIPTION

The SE100 WG is specifically designed for filtering water glycol (HF-C) and is connected to the installation as a bypass system. Thanks to the self-priming motor-pump combination, the unit operates completely independently of the main process. The system effectively removes particulate contaminants and oxidation products (resins), particles that typically cannot be eliminated by standard filters. In combination with a WG100 or DW100 filter element, we keep the liquid in perfectly clean condition. The SE100 WG is the European alternative to the Japanese SE100W-ST SE1000059.
