

Triple R E100 SP Filter Element

Triple R depth filter element

Article number(s): EL10025 / E-100SP TR-20472

PRODUCT DESCRIPTION

Triple R filter elements are manufactured in Japan. A highly precise production process and strict inspections ensure that every filter element meets the specified requirements. Due to their unique and patented composition, Triple R filter elements are the only ones capable of preventing (solid) particles, water, AND the formation of resin. E-Series filter elements are primarily used as the first filter element on hydraulic systems, for use with (combustion) engines and ammonia-containing fluids. E-Series = 5 µm absolute | β5 = 1000

TECHNICAL SPECIFICATIONS

Size	Ø179 x H114 mm	Material	Engineered cellulose with cotton band
Filtration	5 µm absolute β5 = 1000	Weight	0.7
Liquid	Other	Print color	Blue
Max. temperature (°C)	100 (theoretical)	HScode	4823.20-000 1
Country of origin	Japan		

COMPATIBLE TRIPLE R SYSTEM FAMILIES

Compatible products are grouped by system family to keep the datasheet compact.

EUROPEAN DISTRIBUTION & TECHNICAL SUPPORT

Triple R Oil Cleaner | TRIS B.V.

European importer & distributor - Engineering - Assembly - Technical support
Topaasstraat 5, 7554 TJ Hengelo, The Netherlands | +31 74 242 8109
