

Triple R SE100 BL 400V Filter System

Triple R offline / bypass oil filtration system

Article number(s): SE100 BL 3OSP

- Equipped with its own motor pump, for 24/7/365 Off-line use
- Installation on tanks or systems that are not under pressure or do not contain a pump
- Also available: Marine/Offshore, Fuel, ATEX, Lubrication system, Fluid sensors & Remote connection
- Designed and produced by TRIS BV

PRODUCT DESCRIPTION

The SE100 BL is specially designed for filtering lubricating oil and is connected to the system as a bypass system. Thanks to the self-priming motor-pump combination, the unit operates completely independently of the main process. The system effectively removes impurities, moisture, and oxidation products (resins) – particles that cannot normally be eliminated with standard filters. In combination with an X100 filter element, an oil purity of NAS 5 | 16/14/11 or better can be achieved.
